

Mistik Environmental Services Ltd. (Mistik) is a growing consulting company with a diverse client group located in Slave Lake, Alberta. Mistik provides a wide range of environmental and forestry related consulting services and solutions to a wide variety of industries within Alberta, British Columbia and the Northwest Territories. With a multi-disciplinary team that has broad industry knowledge and experience, Mistik provides quality, cost effective services to its clients. We are currently recruiting the services of a **Forest Practitioner / Environmental Technician**.

We are looking for a field oriented employee to join our team to assist in all duties pertaining to projects that Mistik staff are currently working on. Travel may be required for completion of various projects.

Job Description:

This position will be responsible for the provision of high quality environmental, forestry, and resource consulting services to Mistik clients in all sectors. Candidate will be responsible for assisting in delivering services to existing clients. Services include environmental planning and support, vegetation assessments, FireSmart planning, water monitoring, environmental assessments, surveys and layout. This position will include both office and field roles with the majority being field work. In addition, responsibilities will include:

- Plan and carry out field work individually and in a team.
- Prepare project reports, plans, and letters.
- Liaison with clients and stakeholders within project areas.

Qualifications:

The ideal candidate would have:

- University degree or technical diploma in Forestry, Environmental Sciences, Agricultural or applicable experience.
- 1-5 years of operational resource project experience including understanding of logging, road construction, mulching and crossing management, field work, data collection, vegetation assessments, site assessments.
- A solid understanding of reclamation and remediation would be an asset.
- Strong interpersonal skills including communication – both written and oral.
- Strong computer skills with ability to track and report progress through various software tools. MSOffice knowledge is the basis for the position.
- Experience using Trimble and or Garmin GPS units and ArcGIS software
- Experience in various aspects of environmental site assessments would be considered beneficial.
- Ideally possess the following safety tickets: WHMIS, TDG, CSTS, and First Aid, ATV, snowmobile.
- A valid driver's license is required and must supply a driver abstract if chosen as the successful candidate
- Candidates with any level of post-secondary environmental or forestry education will be considered for these positions.
- Professional registration or eligible to be registered would be considered an asset.
- Ability to mentor less experienced professionals.

Candidates with lesser qualifications may be considered.

Additional Information:

Mistik believes in providing its employees with opportunities for career growth. A competitive compensation package will be based on experience and skill of the successful candidate and includes a company benefit package.

Applications will be received ongoing until **August 23, 2019**. *Only those candidates considered will be contacted. We thank all applicants for their interest.*
